01 ROLE AND SYSTEM BOUNDARIES

LOAD / INSPECT

Load 01_ROLE_AND_SYSTEM_BOUNDARIES.pdf only. Inspect the relevant approved references below, with their governance metadata. Do not load unrelated sheets.

PURPOSE

Establish authority and transfer boundaries.

WHAT THIS STAGE GOVERNS

Scoped authority, identity versus transformation, and artistic memory.

WHAT THIS STAGE DOES NOT GOVERN

New identity locks or an assumed example Subject.

BOUNDED CONCEPTS

SYSTEM RULE: Official means supplied, approved provenance, not unlimited authority. Community means contributed provenance; an imported Official claim does not confer Official status. Every exemplar has a scope: what it governs, what it does not govern, what to transfer, and what not to transfer.

Subject owns identity continuity, proportions and protected defining features. Theme owns portable transformation signals and construction. A Theme must not import its exemplar’s identity. Composition, camera, pose, palette, texture and rendering have their own authority. No sample project is the default artistic subject.

USER PREFERENCE records the artist’s explicit preference. LOCAL EXCEPTION applies only to the stated study or production. A liked result, accepted history record, or Exemplar Candidate does not automatically become canon. Only an explicit scoped endorsement may change authority.

APPROVED REFERENCES

Category 01: packs/official/01-subject-identity/manifest.json. Inspect governance before transferring features. Do not import the depicted identity or Theme outside its assigned authority.

- Subject Identity Exemplars: packs/official/01-subject-identity/exemplars/category-01-approved-sheet.png; SHA-256 bbaf4c806a80a197d833be2eb46b00fa87530a50ab30f7542586db41e8b0de75.

Category 10: packs/official/10-theme-costume-transformation/manifest.json. Inspect governance before transferring features. Do not import the depicted identity or Theme outside its assigned authority.

- Theme / Costume Transformation Exemplars: packs/official/10-theme-costume-transformation/exemplars/category-10-approved-sheet.png; SHA-256 009a4a0c2f61121d0c4cf56c7aadc9b066d90a9361dd10bcc4624f8e9dc9e375.

Originals are included only in the local orientation review ZIP/full development package. The public candidate keeps explicit reference metadata and omits unresolved binaries. Rights declarations are not

inferred from artistic approval.

VISUAL EXERCISE

Create two simple generic geometric-object studies. Change a surface treatment in the second while preserving silhouette and proportions. Explain which features transfer and which remain outside the treatment exemplar’s authority.

Restate the bounded concepts before making the image(s). Preserve supplied approved exemplar bytes; the exercise is a new study, not a replacement for an approved original.

USER FEEDBACK

Ask the artist for critique. Record only explicitly stated preferences; do not fabricate likes or dislikes. Revise conversationally when needed, without PASS / RETRY gates. Print the final synthesis after reconciling the critique.

STAGE CONTEXT SYNTHESIS

This synthesis forces the agent to retrieve, reconcile and reason over active context before proceeding. The user need not read every line unless they want to audit or correct the agent. Label statements SYSTEM RULE, USER PREFERENCE or LOCAL EXCEPTION where useful. Distinguish observed evidence from uncertainty.

- What this stage taught me: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What I observed in the generated image(s): Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly liked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly disliked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Approved exemplars or features: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Rejected features / failure patterns: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must remain stable: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What may vary: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What should carry forward: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must NOT be generalized: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Remaining uncertainty: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
