03 COMPOSITION CAMERA AND EDGES

LOAD / INSPECT

Load 03_COMPOSITION_CAMERA_AND_EDGES.pdf only. Inspect the relevant approved references below, with their governance metadata. Do not load unrelated sheets.

PURPOSE

Use deliberate framing, pose and viewpoint.

WHAT THIS STAGE GOVERNS

Containment, cropping, negative space, gesture and camera definitions within their separate categories.

WHAT THIS STAGE DOES NOT GOVERN

Identity, costume topology, palette or facial performance.

BOUNDED CONCEPTS

Category 2 governs conventional framing: choose the tightest frame that contains what the production needs, with breathing room. Head/shoulders, bust, half, three-quarter and full-length are framing choices, not identity definitions. Natural crops use stable body regions. Avoid tangencies and long contours almost parallel to the frame.

Category 3 governs unconventional cropping, extreme negative space, partial concealment, extreme view and frame cant. Contain decisively or crop decisively; do not merely graze an edge.

Category 8 governs pose, gesture and body mechanics. Category 14 governs camera elevation, view orientation, perspective and viewpoint. Pose does not redefine camera terminology. Describe each independently before combining them.

APPROVED REFERENCES

Category 02: packs/official/02-conventional-composition/manifest.json. Inspect governance before transferring features. Do not import the depicted identity or Theme outside its assigned authority.

Originals are included only in the local orientation review ZIP/full development package. The public candidate keeps explicit reference metadata and omits unresolved binaries. Rights declarations are not inferred from artistic approval.

VISUAL EXERCISE

Make two studies of one generic articulated object: a conventional contained composition and a deliberate unconventional crop. Then change camera elevation while holding pose stable. Identify edge intent rather than copying exemplar identity.

Restate the bounded concepts before making the image(s). Preserve supplied approved exemplar bytes; the exercise is a new study, not a replacement for an approved original.

USER FEEDBACK

Ask the artist for critique. Record only explicitly stated preferences; do not fabricate likes or dislikes. Revise conversationally when needed, without PASS / RETRY gates. Print the final synthesis after reconciling the critique.

STAGE CONTEXT SYNTHESIS

This synthesis forces the agent to retrieve, reconcile and reason over active context before proceeding. The user need not read every line unless they want to audit or correct the agent. Label statements SYSTEM RULE, USER PREFERENCE or LOCAL EXCEPTION where useful. Distinguish observed evidence from uncertainty.

- What this stage taught me: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What I observed in the generated image(s): Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly liked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly disliked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Approved exemplars or features: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Rejected features / failure patterns: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must remain stable: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What may vary: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.

- What should carry forward: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must NOT be generalized: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Remaining uncertainty: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
