05 LIGHTING RENDERING AND INK

LOAD / INSPECT

Load 05_LIGHTING_RENDERING_AND_INK.pdf only. Inspect the relevant approved references below, with their governance metadata. Do not load unrelated sheets.

PURPOSE

Separate lighting, rendering and ink decisions.

WHAT THIS STAGE GOVERNS

Light direction, contrast, graphic rendering, contour and black-mass structure.

WHAT THIS STAGE DOES NOT GOVERN

Subject identity, Theme topology, composition or required palette.

BOUNDED CONCEPTS

Inspect Categories 6, 7 and 11. Lighting controls direction, highlight/shadow relationships and mood. Ink controls line weight, contour, black masses, shading marks and edge behavior. Rendering describes the overall graphic/illustration family. These decisions can interact but do not substitute for one another.

Describe whether an apparent dark region is shadow, black structure or a color assignment. Transfer controlled marks and light relationships only within the selected exemplar’s authority.

APPROVED REFERENCES

Category 06: packs/official/06-lighting/manifest.json. Inspect governance before transferring features. Do not import the depicted identity or Theme outside its assigned authority.

- Lighting Style Exemplars: packs/official/06-lighting/exemplars/category-06-approved-sheet.png; SHA-256 37e71a5453ee776de48ac6ec4c1ee960ca795f060e12ddee889b3e2b459d4c75.

Category 07: packs/official/07-ink-contour-black-structure/manifest.json. Inspect governance before transferring features. Do not import the depicted identity or Theme outside its assigned authority.

Originals are included only in the local orientation review ZIP/full development package. The public candidate keeps explicit reference metadata and omits unresolved binaries. Rights declarations are not inferred from artistic approval.

VISUAL EXERCISE

Render the same neutral object with two light directions while holding contour behavior stable. Then compare two ink structures at the same light direction. Avoid changing silhouette, framing or palette during the comparison.

Restate the bounded concepts before making the image(s). Preserve supplied approved exemplar bytes; the exercise is a new study, not a replacement for an approved original.

USER FEEDBACK

Ask the artist for critique. Record only explicitly stated preferences; do not fabricate likes or dislikes. Revise conversationally when needed, without PASS / RETRY gates. Print the final synthesis after reconciling the critique.

STAGE CONTEXT SYNTHESIS

This synthesis forces the agent to retrieve, reconcile and reason over active context before proceeding. The user need not read every line unless they want to audit or correct the agent. Label statements SYSTEM RULE, USER PREFERENCE or LOCAL EXCEPTION where useful. Distinguish observed evidence from uncertainty.

- What this stage taught me: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What I observed in the generated image(s): Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly liked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly disliked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Approved exemplars or features: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Rejected features / failure patterns: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must remain stable: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What may vary: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What should carry forward: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must NOT be generalized: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Remaining uncertainty: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
