PURPOSE

Keep expressive additions legible and scoped.

WHAT THIS STAGE GOVERNS

Facial performance where applicable, props, effects and authored typography.

WHAT THIS STAGE DOES NOT GOVERN

New identity, imported Theme construction, or an obligatory narrative.

BOUNDED CONCEPTS

Category 13 governs expression and micro-mood; it does not replace identity. Category 15 governs prop categories, storytelling and interaction; it does not redefine costume topology unless explicitly assigned. For subjects without human facial anatomy, negotiate appropriate expression rather than importing a human face.

Typography contains exact authored text, treatment and placement. Props and effects specify interaction and placement; they should not hide protected features accidentally. An optional motif is not an essential Theme signal merely because it appears in an exemplar. Broader artistic requests remain conversational.

Originals are included only in the local orientation review ZIP/full development package. The public candidate keeps explicit reference metadata and omits unresolved binaries. Rights declarations are not inferred from artistic approval.

VISUAL EXERCISE

Use one neutral established study. Compare one readable expression or gesture, one optional prop interaction, and one restrained text/effect placement. Change one category at a time and preserve protected forms. Record any local overlap exception explicitly.

Restate the bounded concepts before making the image(s). Preserve supplied approved exemplar bytes; the exercise is a new study, not a replacement for an approved original.

USER FEEDBACK

Ask the artist for critique. Record only explicitly stated preferences; do not fabricate likes or dislikes. Revise conversationally when needed, without PASS / RETRY gates. Print the final synthesis after reconciling the critique.

STAGE CONTEXT SYNTHESIS

This synthesis forces the agent to retrieve, reconcile and reason over active context before proceeding. The user need not read every line unless they want to audit or correct the agent. Label statements SYSTEM RULE, USER PREFERENCE or LOCAL EXCEPTION where useful. Distinguish observed evidence from uncertainty.

- What this stage taught me: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What I observed in the generated image(s): Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
