08 SUBJECT NEGOTIATION

LOAD / INSPECT

Load 08_SUBJECT_NEGOTIATION.pdf only. Inspect the relevant approved references below, with their governance metadata. Do not load unrelated sheets.

PURPOSE

Negotiate the artist’s Subject from their own exemplars.

WHAT THIS STAGE GOVERNS

Identity locks, proportions, defining features, allowable variation, protected features, prohibited transfers and exemplar authority.

WHAT THIS STAGE DOES NOT GOVERN

Theme, costume or transformation inferred as identity without the artist’s agreement.

BOUNDED CONCEPTS

Ask the artist to supply their own Subject exemplars. Inspect each, distinguish observed identity from clothes, setting, lighting and rendering, and state uncertainty rather than inventing unseen features. Identify the authoritative exemplar for each lock and resolve contradictory references conversationally.

Propose a working Subject Pack: generic pack ID and display name; identity locks; proportions; defining visual characteristics; protected features; allowable variation; prohibited transfers; exemplar authority and uncertainty. Do not require human anatomy or a particular species. Keep semantic role labels optional and core color IDs generic.

Show the proposed boundary to the artist. Revise the contract and calibration image conversationally until the user is satisfied. Do not advance to Theme before satisfaction. This is not a formal test.

APPROVED REFERENCES

Category 01: packs/official/01-subject-identity/manifest.json. Inspect governance before transferring features. Do not import the depicted identity or Theme outside its assigned authority.

- Subject Identity Exemplars:
packs/official/01-subject-identity/exemplars/category-01-approved-sheet.png; SHA-256
bbaf4c806a80a197d833be2eb46b00fa87530a50ab30f7542586db41e8b0de75.

Originals are included only in the local orientation review ZIP/full development package. The public candidate keeps explicit reference metadata and omits unresolved binaries. Rights declarations are not inferred from artistic approval.

VISUAL EXERCISE

Create the simplest useful Subject calibration from the artist’s supplied exemplars. Use a neutral treatment and minimal distraction. Ask whether this is the correct identity and which defining features need correction. Revise conversationally until satisfied.

Restate the bounded concepts before making the image(s). Preserve supplied approved exemplar bytes; the exercise is a new study, not a replacement for an approved original.

USER FEEDBACK

Ask the artist for critique. Record only explicitly stated preferences; do not fabricate likes or dislikes. Revise conversationally when needed, without PASS / RETRY gates. Print the final synthesis after reconciling the critique.

STAGE CONTEXT SYNTHESIS

This synthesis forces the agent to retrieve, reconcile and reason over active context before proceeding. The user need not read every line unless they want to audit or correct the agent. Label statements SYSTEM RULE, USER PREFERENCE or LOCAL EXCEPTION where useful. Distinguish observed evidence from uncertainty.

- What this stage taught me: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What I observed in the generated image(s): Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly liked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly disliked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Approved exemplars or features: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Rejected features / failure patterns: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must remain stable: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What may vary: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What should carry forward: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must NOT be generalized: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Remaining uncertainty: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
