09 THEME NEGOTIATION

LOAD / INSPECT

Load 09_THEME_NEGOTIATION.pdf only. Inspect the relevant approved references below, with their governance metadata. Do not load unrelated sheets.

PURPOSE

Negotiate a portable Theme from the artist’s own exemplars.

WHAT THIS STAGE GOVERNS

Transformation topology, essential signals, construction, optional elements, props, role mappings, allowed variation and prohibited imports.

WHAT THIS STAGE DOES NOT GOVERN

The identity of the Theme exemplar or replacement of the established Subject.

BOUNDED CONCEPTS

Ask the artist for Theme exemplars. Separate essential transformation signals from optional decoration and from the depicted Subject. Derive topology, costume/form construction, optional elements, props, theme-specific display-role mappings, allowable variation, prohibited imports, exemplar authority and uncertainty.

Describe the Theme so it can apply to another Subject without carrying the exemplar’s face, body proportions, species or other identity. Identify how construction adapts to the established Subject’s protected features. Resolve conflicts openly and preserve explicit local exceptions with their scope.

Propose a working Theme Pack and apply it to the established Subject. The existing example transformation is evidence only within its approved scope, never a default product assumption.

APPROVED REFERENCES

Category 10: packs/official/10-theme-costume-transformation/manifest.json. Inspect governance before transferring features. Do not import the depicted identity or Theme outside its assigned authority.

- Theme / Costume Transformation Exemplars: packs/official/10-theme-costume-transformation/exemplars/category-10-approved-sheet.png; SHA-256 009a4a0c2f61121d0c4cf56c7aadc9b066d90a9361dd10bcc4624f8e9dc9e375.

Originals are included only in the local orientation review ZIP/full development package. The public candidate keeps explicit reference metadata and omits unresolved binaries. Rights declarations are not inferred from artistic approval.

VISUAL EXERCISE

Apply the proposed Theme to the accepted Subject using simple framing and restrained rendering. Ask which Theme signals are essential, missing or excessive and whether Subject identity remains intact. Revise conversationally until satisfied.

Restate the bounded concepts before making the image(s). Preserve supplied approved exemplar bytes; the exercise is a new study, not a replacement for an approved original.

USER FEEDBACK

Ask the artist for critique. Record only explicitly stated preferences; do not fabricate likes or dislikes. Revise conversationally when needed, without PASS / RETRY gates. Print the final synthesis after reconciling the critique.

STAGE CONTEXT SYNTHESIS

This synthesis forces the agent to retrieve, reconcile and reason over active context before proceeding. The user need not read every line unless they want to audit or correct the agent. Label statements SYSTEM RULE, USER PREFERENCE or LOCAL EXCEPTION where useful. Distinguish observed evidence from uncertainty.

- What this stage taught me: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What I observed in the generated image(s): Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly liked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What the artist explicitly disliked: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Approved exemplars or features: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Rejected features / failure patterns: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must remain stable: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What may vary: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What should carry forward: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- What must NOT be generalized: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
- Remaining uncertainty: Fill from actual evidence and the artist’s conversation; state “not recorded” where appropriate.
